

Poster nr	Title	Presenter
1	Pomegranate production in Australia: barriers of the Queensland fruit fly	Mohammad Hassani, Australia
2	Overview of South African fig pathogens	F. Flint, South Africa
3	Pomegranate scab – a new disease in South Africa	E Carstens, South Africa
4	<i>Coniella granati</i> : Presence in South African stored pomegranates	Elrita Venter, South Africa
5	Phenology, morphology and postharvest qualities of two pomegranate cultivars grown at varying altitudes of Al-Hajar mountains in Oman	Basim Al-Kalbani, Oman
6	Study on adaptation and determination of the best training and planting density of common pomegranate cultivars in different regions	Mohammad Reza Vazifeshenas, Australia
7	Evaluating pollen germinability and fruit set of eight Iranian pomegranate cultivars	Mohammad Reza Vazifeshenas, Australia
8	Identification of cold-hardiness traits in several Iranian pomegranate cultivars	Mohammad Reza Vazifeshenas, Australia
9	Relationship of on-tree fruit colour change to maturity and postharvest behaviour of 'Lamb-Hass' avocado fruit	Sbulelo Mwelase, South Africa
10	Relationship between photosynthetic efficiency and fruit maturity of 'Lamb-Hass' avocado	Sbulelo Mwelase, South Africa
11	Effect of polyethylene mulch colour and maturity stage on strawberry phytochemicals and postharvest quality	Helene Fotouo-M, South Africa
12	Postharvest quality analysis of imported and domestic pomegranate fruit in Australia	Mohammad Hassani, Australia
13	Postharvest storage quality of South African golden kiwifruit	N Mahlaba, South Africa
14	Effect of postharvest storage temperature on antioxidants of South African golden kiwifruit	Mbalenhle Nkonyane, South Africa
15	Fruit quality and consumer preference of four avocado varieties	J. Pablo Morales-Payan, Puerto Rico
16	Phytochemical analysis and in vitro evaluation of antioxidant capacity and α -glucosidase inhibitory potential of methanolic extracts of pomegranate plant parts	Olaniyi Fawole, South Africa
17	Pomegranate definitions and research methodologies: importance of using correct and unified terminology	Pablo Melgarejo, Spain
18	Combination of antifungal edible coatings and MA packaging for postharvest preservation of fresh 'Mollar de Elche' pomegranates	Lluís Palou, Spain
19	Formulation and characterisation of chitosan-based films incorporated with <i>Bidens pilosa</i> extract	Kwanele Nxumalo, South Africa
20	Investigating the potential of edible coatings to maintain quality in exported nectarines ('August Red')	Shannon Riva, South Africa
21	Ultrasonic-assisted gum arabic pretreatment technology for dried carotenoid crops: a case study for dried carrot slices	Zobabalo Mina, South Africa
22	Quality characterization of commercial pomegranate juices	Maurizio Servili, Italy
23	Effect of harvest maturity on the physicochemical properties, phenolic content and antioxidant capacity of dried pomegranate (<i>Punica granatum</i>) arils ("Wonderful")	Adegoke Adetoro, South Africa
24	Effects of pre-treatments on the enzymatic activity, drying behaviour and rehydration of dried pomegranate arils	Faith Mokapane, South Africa
25	The puzzle of pomegranate colours and anthocyanin	Rotem Harel Beja, Israel
26	A mutation in the anthocyanidin reductase (ANR) gene is suggested to cause the "black" peel colour in pomegranate (<i>Punica granatum</i> L.)	Taly Trainin, Israel
27	Technological sequences for multiplication of almond propagation material	Corina Gavati, Romania
28	The behaviour of some apricot cultivars from the Mediterranean area in the climatic conditions of south-eastern Romania	Vladut Alexandru Oprita, Romania
29	Comparison of cloned passion fruit accessions	J. Pablo Morales-Payan, Puerto Rico
30	Dynamics of flower type development and fruit set during the blooming of pomegranate	Pavlina Drogoudi, Greece
